First, a prayer, "I will not be denied. No more. I have sought correction and an uncommon mentor has appeared, as I expected. I am on purpose and I agree, what you GIVE AWAY you always get to keep. I will share this book INTO 100 lives. I was supposed to READ this because I expected for WISDOM keys to appear INTO my life.

I deserve prosperity and it has shown up in the form of an ACTION guide and with a team of like minded MASTER-MIND Genius friends. I peeked into the Bible and read GEN 1: 11 and now have a greater understanding. Thank you."

[1]

Lesson up. Whoever said, "time is money" probably meant to say that "time is energy." Properly used, time **can translate itself into other people's energy** pushing towards you the will power of whatever you dream about as your place of total happiness.

In a business sense, here are some ideas about time that can double your income (at least) and triple your time offs!

[2]

Here's an example. I have over twenty training audio CD's. Each one is an hour long and traditionally I sell 8,500 of each one the first two months they are offered and available. Or more.

Because my CD's validate the end-users experience with me and translates what I teach, like this article for example, over a one hour message, that's 8,500 hours X's 2 = free 16,000 hours.

Most people mention that they listen to my CD's over and over again. But for argument sake, lets agree that each person listening to my CD's listens twice. That's again, 8,500 X's 2 hours = 16000 hours. That's 16,000 HOURS of OTHER people I have leveraged.

In my head and in how I conceptualize the relationship BETWEEN time, energy and money, that means that for each CD I create, ***I am creating an automatic salesmen for myself selling for me for 50,000 hours.*** (see GEN 1:11)

FINE-PRINT: I can't explain how the Bible works or it's laws. I just USE them and know that they work.

WISDOM KEY # 1
“Your Riches Stand Next To what You Hate.”
Go ask Martin Luther King, Jr or Oprah or Arnold if that's true.

And more of the Mystery of Increase and Wealth Were Decoded and everyone was pleased....

[3]

The average guy doesn't think like this. I also might bring to your attention that no one that you ever met that was stumbling through life had any respect for time. *That's because you can't respect TIME and become successful at the same time. You just can't. People who are lazy Nerr-do-wells DO NOT RESPECT time. Not even yours.*

Quick. Come with me into this paradigm shift even deeper. You deserve to **OWN** this power.

**“Everything in Life That You Don't Have is
Because You Decided Not to Trade Time for It.”**

Joe Schroeder Note to Himself: (Most people miss the hidden order in “Think and Grow Rich.” ALL of this is sitting there staring right at people. Thank you for my vision. Thank you. It took me 21 years to see all of this. Thank you!)

[4]

Years ago, as a door to door frozen meat and seafood salesman, I worked hard and hustled for at least ten hour days. I never made more than \$800 in a day and on average, I rang the bell daily hitting \$200 to \$300.

Years later, as an economist of prosperity, I have made as much as \$10,000 in a single day. With that being said, here is the mind-set:

Me. Same guy.

Me. Same 8-10 hours per day. So what changed?

HOW did I scoot from \$300 per to \$3,000 per day and sometimes more? Hmm. But how?

Better business is about better optimization. That's not as fancy as it sounds, all that is about, is getting more results in less time with more profits **within** a smaller **element of time**.

Webster defines “economy” as *careful and thrifty management of resources, as income materials and/or labor*. So there you go. Two ideas = A + B = \$\$\$\$\$\$\$.

(a) More results.

(b) In half the time = BETTER optimization. Simple. AFTER you figure that out.

“You Can’t Complain About what You Permit.”

When you go to that job that you hate, does anyone hold a GUN to your head? If not, WHY complain?

The Caesar Concept

Me? I am totally into dominating the market and if I can’t and maybe that is just one of my delusions, I will still over power, out market, out enroll, out ummph and maximize my time, my sales organization and whatever else I touch to the outer utmost of my being.

And you should to!

Repeat this with me out loud, “*everything Caesar did I can do also.*”

What’s weird though, is that *I actually BELIEVE the above statement.*
I actually see NO difference between myself and Trump.

[5]

What Trump has over me is simply experience, reputation and Trump has a thousand more “power” relationships than me. ***That’s it.*** We both work 16 hour days. My days translate into a working economy of probably 80,000 hours. Daily.

Trump, who has probably 18,000 people daily employed by him!
 $18,000 \times 8 = 144,000$ working hours PER DAY under his belt = Donald Trump.

THAT’S BEING OPTIMIZED! (Yeah “The Donald!”)

Even this article you are reading right now and this web-site you are glued to right now, while I am off-line doing something else, is a perfect example of me out performing ***my own physical ability*** and maximizing not only my own energy, *but yours!*

The Joe Schroeder Example:

65,000 people READING this eBook for 65,000 HOURS.

Now translate that into 1.5 Million hours. Remember, this will be passed around some what.

Now do the math. That’s like having a TV info-commercial playing for me all day / everyday for ten years. Now THAT is being 100% leveraged AND optimized. Thanks Dr. Napoleon Hill. Thanks!

“where You Are **MOST Celebrated Rests Your Ultimate Riches.”**

People who have jobs only get tolerated. Guys like Dr. Hill, Elvis and James Dean LOCATED their bliss.

Question 1: Did RAY KROC of McDonalds, at age 52, LOCATE where he would be MOST celebrated?

Question 2: Did JFK and Plato LOCATE where they be would be MOST celebrated? Yes, they did.

CLUE: Where you are CELEBRATED is also where you can do the MOST good for the most people.

CLUE: To be who you were BORN to be takes GREAT power of humility. It takes GUTS *to be the real you.*

This eBook will take you 40 to 60 minutes to read. In my book, that gives me an HOUR to serve and possibly *sell you on yourself*. The thing is though, I am off doing whatever while YOU are investing YOUR time in me.

Clue: To get more GET value all you do give more GIVE value. (this book was free right?)

REMEMBER DON LEPRE

Don had that late night TV infocommercial. He sold a mail order course and he kept saying, “one time little classified ad can make you thousands of dollars a day.”

[6]

In my head, that meant one tiny little ad in the newspaper could represent 1,000 people x’s 3 minutes for me. That’s because the newspaper could sell, speak, up sell and market to people, while I wasn’t there 24/7.

Think quick. What changes **if** your relationship to TIME changes? **The answer?** Everything.

Yup, *that’s right*. Not only your life but very possibly your income. All you do is change your perception and relationship with time. Change your relationship to TIME and your LIFE changes~!

People Like This Section:

Selling meat and seafood = I used MAYBE 10 hours per day of OTHER people’s time. (selling)

What this is about is playing like we are playing AT&T or A.O.L. right out of your own spare bedroom as you shift to an extra \$100,000 to \$250,000 within the next twelve to twenty four months. Say it again and make it yours. Why? Because.....

But there's more. This is about playing large and using the playbook designed by the big boys and girls, even if you are just starting out and this is still just a spare-time thing for you.

This is about more than winning. *What I am talking about is attaining absolute influence and absolute power while at the at same time doing it with such style, grace and eloquence, that people jump over hoops and crawl under doors and up into windows just to experience what doing business with you is like.* That is time well spent wouldn't you agree!

You know what I am talking about if you have ever purchased anything from Disney, Omaha Steaks or something on television from QVC!

I read once, "why bother walking out onto the field if you aren't prepared to win." I like that. I also like to work smart which means being fully and 100% optimized. Which is as I said before, *getting more results in less time with more profits within a smaller element of time.*

It's about energy squared. But mostly other people's. Not yours.

The Economy of Riches, "what that?" Mary asked...

(1) **Optimization** gets more done in less time and makes you more money with less energy and (2) **economy** is about using every tool and marketing breathe you take to fully exercise itself into an abundance of success. I would call that a practical focus wouldn't you?

Which is what most beginning entrepreneurs lack, i.e., *practical focus.*

Unfortunately however, if you asked Networkers for three or four examples of how they are optimized they would respond, "what's that?" Because they are dumb? Not at all, it's just because in our industry, business isn't taught. Instead, what is shoved down everyone throat is buy leads and sponsor more people.

Practical Focus:

Wonderful notion. But “practical focus” that alone without any practical business philosophy and marketing wisdom, behind what you do, is like having a pancake breakfast and forgetting to serve any syrup.

Yuk. Not only that, but there is just so long people can stay excited *about being excited* without knowing *why they are excited* and without making some significant money!

(yeah go ahead, I’ll wait. Go read that again. It’s okay. I know you want to. Read that again.)

So the idea is that *with a focus on economy* and optimization you can out-wit, out perform, out market, slam dunk your competition into the waste paper basket and walk away with insanely rich profits only imaginable in most people’s dreams.

Here is What Paula Once Asked....

[9]

“Cool, I got it, now where do we start?” You start by shifting your focus from “me” to them. It’s about your clients and your customers, *not you*.

I am not talking about better customer back slapping or anything else so obvious and even trite. Face it, customers expect better than decent service—already---and they already expect you to over deliver.

Most people look to DO less and receive more. The magic is to deliver more GIVE value and to decrease cash value. In other words the magic is to charge less and give more.

Serve. Sow. Give what you have away.

Someone in the sky once said something kinda like this, “what you give away is called reciprocity. Meaning, that what you give away you always get to keep.” Then He continued with, “and what is left over, in your hand, WILL multiply.”

Your MOTHER also said, “do unto others as you would like them to DO unto you.” (Golden rule)

Then the PRIEST added, “what you DO to other people God does TO you.”

Everyone liked that line and felt better. Plus, they all slept like peas in a Pod that night!

“You’ll always earn income **Only to the degree that your awareness will Allow you to Keep.**”

Postal Carriers and Mail men DON’T earn \$50,000 month because they aren’t AWARE that they can.

Wendy stood and asked, “so how can I get more business AWARENESS?”

And then everyone smiled and as a team they ALL said together, “when you seek correction an uncommon Mentor will appear.” Wendy then said, “so what?” And someone from the back of the room mumbled, “*sow this, what a Mentor can GIVE YOU in five days can ERASE five years of mistakes, frustration and lost revenue.*” That is what being AWARE can do!

[10]

Serve. Sow. Give what you have away.

That works. That’s what built Wall-MART and McDonalds. Give more GIVE value that you take in CASH value. Serve. Sow. Give what you have away. Share.

By doing that MORE people will give you their (time) energy and trade their money with you.

NAPOLEON HILL always says, in all of his books, “give more SERVICE than required or expected.” Now you understand why.

W. Clement Stone (see, “Success and Grow Rich Through Persuasion”, by N. Hill) speaks about how STONE donated years of his life to SERVE and SOW the message of THINK and GROW rich.” Well now you know HOW **W. Clement Stone** became a BILLIONAIRE.

Clue: What leaves your hands PREDICTS and **FORECASTS** what will hop back in.

Clue: You obligate the world through reciprocity.

Clue: Being OPTIMIZED is using any and all means to TILT the universe *in your direction.* (yes!)

Clue: You **can** TILT the universe. All you do is SOW principle INTO other people.

The RULE is, “man can not CREATE. *He doesn’t have that power.* But he can invite MORE to him and he can INVITE people and income *towards him.* At will, all day long. You can too.

That’s the RULE and you **CAN NOT** beat the system. Try to and you go (greed) broke!

Creating More Sales by Giving Away More Energy

That's not a big deal. What is a biggy though, is that because that little mind tickler is so ripped with value, that loads of my happy buyers come back to order my \$197 program. Even more of them return again to pay hundreds of dollars to participate with all of us in our gated private members only paid members area.

Give + sow = Sales = Back-end sale + support = Another sale = Rolls-Royce!

Serve. Sow into other people. What you give away you always get to keep. Trade well and people will line up to trade their energy with you.

With that very short preamble, lets begin.

In a business sense, what is time? They say that "time is money," and they are right. But if you really look closely, the beauty of time, within the context of business, is that you can earn from a leverage of 100 to 10,000 hours per day. No big deal, just add it up.

If you had 100 people each investing two hours per day working within your sales organization, that would be 200 man hours invested into your business, right?

All created by other people!

Taken even further, we can say that someone like Michael Jordon, beyond earning income in the most obvious ways that we can imagine, that MJ probably has upwards of 2,000 hours *per day* of earning power.

Arguably even **more** a lot of people would tell you. But how? How can all of this add up to earning from a leveraged base of 2,000+ hours per day?

Michael Jordan

Well, think about it. Think of all of the people in stores that sell his shoes. Think of all of the media adverts that sell his cologne, his clothes and everything else he merchandises!

“I Owe, I Owe, So Off To Work I Go.”

Meanwhile, the guy who is barely making enough money to pay his bills earns on how many hours per day? That's right. Between eight and ten hours. And to add insult in injury, for a real slap upside the head, the average worker is only paid *on what their jobs pays* and in no relation to their own value and/or in their own ability to influence!

Ain't that a mouthful to digest! People get paid on their JOB TITLE. Not on their actual worth.

[12]

The Economy of Time = Fortune

The fact is Ladies and Gentlemen, after I calculated this element of time and it's subsequent and equal measure of power, nothing I used to do to earn money *made any sense to me*. Not even an iota. How could it?

Plus, no matter how hard I worked and no matter how sincere, how ethical and how service oriented I used to be, years ago before I started down this path, darn it, there were still *only about ten hours* of selling time I could fit into each and every day. Rats!

[13]

Time runs out. Every day we poop out, pop on the TV and zzzzz. But not *if you use the energy of other people*. That way, time becomes leverage instead of something that saturates and goes away.

M1: Exchange time for money.

M2: Take a chance and invest your money.

M3: Have other people earn you money.

A fourth (4) way to earn money hasn't been invented; unless of course you were born with a silver spoon in your mouth. But is that earning it?

Now today, thousands of people work *with me* to make money. See the difference? Of course you do, but I am not convinced that you have ever heard or read about what you know, this subject for example, with exactly these same paradigms that I am using.

So good for us, lets keep this rolling.

See, back in the day, years ago, because I knew, rather, because I “figured out” these elements of time, I began to reckon that if what I was doing to earn income *did not involve other people* and their accumulation of time, I knew that I was in fact, **wasting my time**.

No More Praying To The gods of Struggle!

I once read, “*anybody can make a bar of soap but it takes an intelligent person to sell a thousand bars!*” And that was me. I didn't want to be on the side of labor, I wanted to be on the side of smart, affluence and someone with absolute and utter power. Of course it's one thing to know about these things, anybody can make a bar of soap right?

On the other hand, to engage and to implement what you know, **see the difference?**

I yearned to be optimized. But I also knew I had to be efficient and to have economy in every thrust of my will power.

Live NIGHTLY CALLS 9:27 PM (est)

[14]

In my book, *“economy of time” is within the execution of energy that other people expel into adding income to whatever business you share with those people.*

It's about $1+1 = 10$ and not $1+1 = 2$.

The employee: $1 + 1 = 2$

The Entrepreneur: $1 + 1 =$ (duplication) 10

You “ten times” yourself through the attainment of OTHER people investing their energy into your destiny.

EVERYONE CALLS THIS THE “STUPID” PART!

Boiled down to the stupid, which is classical the BEST answer, is that the game is to give more people more excuses to trade their time and money with you.

That's what the lady who owns ten (10) McDonalds is doing. The gal isn't in love with McDo and creating ten stores to be a loyal franchise owner. Nope.

What she is doing is exercising a wealth principle. “The more you increase into other people, more often, the more INCREASE can be measured back into your pockets.”

Paul said, “the more you help other people (hamburgers) get what they want the more you can have what you want.”

[15]

And then someone shouted and asked, “**what about SPIRAL Networks!**”

Spiral Networks

So what do we do? You and me build “networks.”

SPIRAL NETWORKS are when one marketing piece of revenue flows seamlessly into the next and the next. Just like how Madonna weaves you from CD to concert to t-shirt to concert magazine to her book in Barnes and Nobles. The PARTS equal the sum. It's all connected.

That's continuity or SPIRAL Marketing.

It's seamless and each element **predicts a future purchase** from the original customer.

Steve Jobs (iPod) sold \$300M in iPod accessories in 2005. Does that make him a money monger or a GENIUS of Spiral Marketing?

The Filthy Rich Get Richer and Richer

(here's the trick they use)

[16]

Subscription Marketing

That's what people in our industry do. We “network” and we assemble, we promote and we breed others within our network to share in the services and in the products that we all purchase from reliable sources.

Amway does this. AT&T does this. Avon does this. They grab monthly repeat subscribers.

Oprah Winfrey sells TV affiliate subscriptions and Trump gets people to lease apartments. *Monthly.*

Verizon connects and bills you automatically monthly.

My coaching clients pay me monthly. Automatically.

Sears credit card charges you a finance charge *monthly.*

Time-Warner magazine subscriptions. *Monthly.*

AOL debits you monthly.

That's what network marketing is. Really it's being like TIME-WARNER.

It's about being totally and wonderfully leveraged AND optimized

The RICH people figured out that to **maintain their wealth they had to create little pyramids** of people and get that pyramid to create more customers for their subscription business.

The pyramid is CEO, vice president, general manager, sales manager, salesmen and secretaries.

Chrysler is a subscription based company. You have heard of Chrysler credit right? Here's their biz model. ***CREATE new people to charge monthly by creating up-front retail sales of cars and Dodge trucks.***

That way, they can over charge everyone which then creates a vacuum filled with people who need to FINANCE those over priced vehicles. ***What this does is create an excuse for Chrysler to sell a \$25,000 car for \$34,000 (financed) and creates a monthly debt to the end user.***

Banks are in on this too! They also located ten to twelve ways to charge you per monthly. Check fees, debit fees, on-line fee's, etc, etc.

Pretty cool once you have figured this FORMULA for riches because once you do you can see this system almost everywhere used by the wealthy.

A shared resource of optimization. *That's our business.*

WISDOM KEY # 5

“You don’t have to get it right, you just have to get it going”

See chapter #2 on HENRY FORD in “Think and Grow Rich.”

Fact: Joe Schroeder was in the slow classes in Ridgewood high, 1978.

Fact: I graduated (barely!) from Ridgewood, NJ 07450. (almost last!)

Fact: HENRY FORD could not do 5th grade math. And so what?

[17]

Here are some things that almost no one else does. When I get a good lead I call them up on the phone. To me, a good lead is someone who stepped forward from observation to a minor commitment. For instance, if a lead hops onto your conference call and/or they buy your ten or twenty dollar front-end retail product, I’d call that a pretty hot lead wouldn’t you? Of course you would.

So what do I do? I call them and if they sound even remotely into what I am promoting and they sound even the slightest bit like someone that I would want to work with---surprise---I mail them an off-line booklet and tape. Now I know, I know.

I Use My Prospects Time. I “Bake” them in my funnel
I give them REASONS to STICK around.

We’re not supposed to do that. Everything is supposed to be “automatic” and everyone is supposed to get a free downline and guess what, never forget what mom always told us, “if it sounds too good to be true.....

It probably is!

Me? I “wow” people. ***I can afford to because I understand time, optimization, the economy of time and I know the marginal net worth of everyone that I enroll. Knowing this allows me to do what very few Networkers these days do.***

This allows me to build relationships with my prospects. I take the time to call them a number of times and I invest in little two and three dollar information packages that I snail mail deliver right to their homes. And here is what they prospect thinks while all of this is happening...

(a) “Geez, this guy isn’t rushing to enroll me, this guy must be a pro.”

(b) “Wow, he sent me a booklet and audio tape. How nice. No one does that anymore. If Joe ever follows up and calls me I am definitely going to speak further with him about his opportunity, Joe must really care about his people.”

Complimentary MP-3, Ask for “The Conquering Chief!” Audio
Just Ask The Soldier of Prosperity Who Gifted This eBook To You

Now, for some sage advice. If you knew what your time was worth to you, you would not only do more, you would figure out *how to do less* and how to be optimized like someone who earns \$10,000 per day earns. Some people would say that my “smart” was figuring out about marginal net worth and knowing the hidden value of future customers and then being able to “wow” them into my downline through leverage.

[18]

I might agree. However, the subtly of my “systems” is that I cater to my prospects beyond what they would ever expect. Here is a worthy caveat for your collection, take heed, whatever you do for someone something that is clearly unexpected and completely not required, say like, after people buy something from you, you send them a “thank you” card, I mean really, who does that anymore?

However, ponder this. People don’t care how much you know until they know how much you care.

And the hidden variable here about using the economy of time as more leverage, *think of how much more time your prospects would sit within your sales funnel if you added phone calls and off-line packages to your mix!*

Think of the reciprocity that would reverb back to you. Think of the “wow” and how different you would position yourself in your prospects minds compared to everyone else that is trying to sponsor them in this and that.

Not only that, but think about this. When you network to network instead of playing “MLM,” whatever that is these days, but if you truly networked and took the time to network, properly, think of how much faster you could create a downline and think of how much faster you could create a 2,000 to 5,000 hour leveraged work week if you used the power of time!

“OH MY GOSH!”

Consider this, when people hop through a web-site they poke their heads in for what? One minute there and a minute over there? Maybe they get an e-mal and only half read it right?

Wait though. How l-o-n-g would they take listening to an audio tape? Maybe an hour? And how long would they invest in thumbing through your companies booklet or catalog? Maybe fifteen to twenty minutes?

Time. The economy of time. It’s not about spending more time working but rather it’s about using *other people’s time to make more income.*

Marginal net worth!

Optimization!

Off-line reciprocity!

The Study of Time

A: Time is the agent which transforms *causes* into their *appropriate effects*. That’s why they say, “time heals all.” However time NEVER heals all. It is through F-A-I-T-H that time heals.

B: The money mongers try to out smart nature and call in riches without any real understanding or *use of time*; which is one of natures (and Gods) truly wonderful, wonderful gifts of abundance! **Mon-ger** (Mong-ger) *N. 1:* Dealer of a commodity.
2: Promoting something undesirable. To peddle.

C: Time is a beautiful **tool of abundance**. Look how Thomas Edison, Galileo, Lincoln and Schwarzenegger used time. Look how time transforms irrational youth into wisdom and how time transforms sin into grace. How? By taking time and using penance and repentance, the sinner gains grace.

D: If a car’s engine is only an engine, without the wheels, which then give the engine movement, then with time we must also then appreciate the “wheels” *that give time it’s momentum*. Which are patience, faith, discipline and intelligent action. Now that we know that, can you see how the get-rich-quick crowd always fails?

E: *Where’s there is no faith there is no patience and where there is no discipline there can’t be any intelligent actions. Only through time can you attain any of these pivotal character traits.*

F: Time is the enemy of the get-rich-quicker and “short-cuts” usually **forfeit** the abundance of what **time** could have added to their projects. I once read, “a fool and his money often part ways.”

Please Read And Unravel This Puzzle. Prosperity Will Follow.

The Set-Up: If you listen to anyone who is really successful, I mean *really listen* to what they say and all that they have to offer, even if it’s simply studying an interview with someone “great” that you read in PEOPLE, but if you really look for it, **you can hear** how profoundly intelligent the successful are. Then they remind you (Bill Gates) how they never went to college or how uneducated they really are and you’re like, “*then how come they’re so dang smart*”!

Answer: It’s because successful people *never have idle time*. Average people have little and few possessions and are usually ornery and ill-tempered. Plus, they are slaves to their jobs. Successful people on the other hand, have abundance and it’s because they **never waste time**. And in doing so, **they allow the all knowing** intelligence (collective consciousness) to seep into their lives. Which in turn guides their (time) every move.

G: Five (5) days with an UNCOMMON mentor can ERASE two years of struggle and regret. Time used properly saves lives and helps to invite more universal good into you right now.

H: Knowledge never applies itself. It is only through DYNAMIC ACTIVITY that action applied *into* TIME and within and throughout the resistance of STRUGGLE, does the man of POWER attain his dream. Heretofore, the man *without the ability* to see BEYOND his circumstances stands and gawks at this SUPER-MAN as a child of five would stare in amazement at a great Magician!

Wise people study time. Here is why. It's because they know that TIME sits between their present and their future.

You Can't Work Hard Enough and Long Enough For You To Gather All That You Desire

Consider this. Pull your chin with me. Think. Look, if hard work resulted in wealth, which it doesn't, than all construction workers would currently be living like Kings! Okay, so with that said, what's the point?

Listen. What you want, I mean what you REALLY want is in other people's pockets. It is the PEOPLE who have what you want. And it your job to leverage and optimize as **MANY OTHER people** as you can. Therefore, their TIME, their money and their enthusiasm BECOMES yours.

Dr. Napoleon Hill speaks often in his two classic, “Think and Grow Rich” and “How to Succeed and Grow Rich Through Persuasion” on what he calls, **GO THE EXTRA MILE**. Both books, by the way, are books that if read together, as companions, are simply beyond words. They really are.

I won't make this easy for you, only because if you are someone who actually **DESERVES** and who has **EARNED** this wisdom, by Hill, you will have to go *yet another mile* and **ADD UP THE PIECES** of the PUZZLE yourself. You are almost there. **DO NOT GIVE UP. STAND, Rise & CONQUER!**

I care about you, forgive me, but you must **E-A-R-N** the ANSWER:

[A] There aren't enough hours in a day for you to accomplish enough and to exercise what would need to be done for you to **RUKE** and **CONQUER**. Even Kings and Presidents have **OTHER** people in their **BRAIN-TRUST**.

[B] What you do **TO** other people God does **TO** you.

[C] If you have **STRANGERS** adding **F-A-V-O-U-R** into your life you would be acquiring 100's of **MAN-HOURS** per day of **OTHER** people pushing you forward and making deposits **INTO** your dream. (look for a formula, it is here)

Phase 1: If what you sell is TRULY of any value, *you do not have to sell it*. Out of 10,000 people 200 to 1,000 will “buy” what you sell **in spite of you** simply BECAUSE you promote what other people want. If you sell a TRULY attractive product INVITE 10,000 eyes upon you gracefully.

PHASE 2: if “phase 1” is correct and it is, than you DO NOT need to lead with SELL and “buy now.” All you have to do **to get more GET value** is BEGIN with more GIVE value. Share this book.
